

Use sports to support your child's  
development and growth.

# MIND

**Mental toughness:**  
Improved concentration,  
ability to focus, fewer mistakes

# BODY

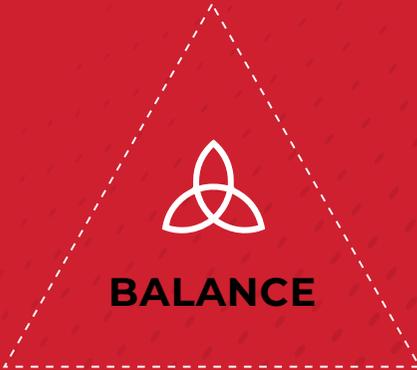

**Physical fitness:**  
Reduced illness, improved  
physical condition, sleep well

# SPIRIT

**Life perspective:**  
Clear values, clear conscience,  
knowing yourself

# OUR VISION

I founded the Football academy because I enjoy working with children and young people. Sport and movement is extremely important for the health of each of us, and my goal is to improve each individual through sport, both in terms of performance and character. I am extremely proud that we are being joined by significant sports capacities.

As a coach, I constantly strive to improve, study and achieve the highest possible education. And I ask the same from our coaching team.

Football and coaching is my dream, it's my life. Improve and advance the individual skills of young players constantly, focus on one touch, learn from mistakes, be constantly confident in 1-on-1 battles, combination speed, take over the ball or be as accurate and successful as possible in the end. All in such a way that players have fun improving their skills, because you have to enjoy football no matter what level you play.

And as my great role model and total football founder Johan Cruyff said, "It's better to fail on the path of your own vision than someone else's." And believe me, if you give our academy a chance, you won't regret it!

# OUR CONCEPT

- ▶ Individual and groups trainings and services for children from 8 to 17 years associated with football
- ▶ Education confident, healthy aggressive footballers strong in 1 on 1 fights with refined technique and a brilliant sense of combining working at maximum speed.
- ▶ The trainings are focused on technical skills, speed and fun.
- ▶ Technical skills such as ball control, passing and processing, first touch, speed, 1 on 1, perception and decision making, finishing and strength.
- ▶ Exercise with targets on the detail of ball control.
- ▶ Preference of respect, character and athletic performance before victory.
- ▶ Corporate with renowned and successful experts in the sports sector

# DNFA TOP 11

Essential skills we teach our players to reach their full potential
